

MAX Maize

Brand Name	MAX Maize
Product Code	C012
Purpose	A Soluble Liquid fertiliser for use as a nutritional supplement for deficiency in Maize crops with the advantage of ease of handling and mixing of water soluble nutrients.
Description	A Soluble PK fertiliser containing: Phosphorus, Potassium, Magnesium and Zinc.
Standard Pack Sizes	10lt, 800lt IBC.

Chemical Composition

Formulation (g/l)	P ₂ O ₅ 440, K ₂ O 75. MgO 67. Zn 46.
--------------------------	--

Physical Properties

Physical State	Soluble liquid
Colour	Yellowish
pH	1.0 – 2.0
Density	1.51 - 1.55

Crops Recommendations

Foliar Applications	<p>3 - 5 lt/ha when the crop is 15cm tall. Where required repeat application, the same rate in 10 - 14 day intervals. Shake bottle well before use. Half fill spray tank with water and begin agitation. Empty the required quantity into the spray tank, mix until dissolved or dispersed and add the balance of the water. Ensure agitation is maintained throughout the spraying operation. Do not allow the spray tank agitation to stop whilst product remains in the tank.</p> <p>Foliar Fix Max Maize is tank mixable with most spray applied chemicals. Read all labels carefully and adhere to the instructions for use and advice regarding whether or not the products should be co-applied. If mixing products in the spray tank, add product first. Many variables outside the control of Safagrow can influence the performance of co-applied products and therefore co-application is entirely at the risk of the end user.</p>
----------------------------	--

Storage

Protect from frost. Store between 5°C and 35°C. Do not store in direct sunlight. Keep away from food, drink and animal feed. Keep out of reach of children.

Application Recommendations

Crop	Rate	Timings
Maize	3-5 L/Ha	Apply when crop is 15cm tall. Where required, repeat at the same rate in 10-14 day intervals. Water rate 200 L/Ha.
